THE FESTIVE MINCE PIE

OF ALL THE holiday delicacies, none carries more of the old-time traditions and associations of good eating and festivity than mince pie. Many writers give credit for its origination to Germany, while others claim that its beginning is lost in the annals of history.

English literature dating to the 15th century is full of references to this Christmas favorite, an essential part of Yuletide celebrations in England.

Old superstitions held that any person refusing to eat mince pie would be unlucky for the coming year. Should he accept the invitation, and partake of mince pie, he would have the same number of happy months during the year as the number of houses at which he ate mince pie.

The oriental character of the spices and flavoring was said to represent the rich gifts of the wise men to the Christ Child.

HELPING SANTA

When Buying Toys for Children

If you wish your child to get the most available from this year's toys, be sure to look for the five major qualities recommended by specialists.

Toys to be thoroughly satisfying for the small fry should have five major qualities, say specialists at the college of home economics, Cornell.

First, toys should be durable to withstand the rough and tumble of any one child and his playmates. Sturdy toys can be repaired and repainted and passed on for the enjoyment of other youngsters, in or out of the family.

Toys should be simple and easy to handle and operate. Simple playthings are more likely to hold interest through long child-hours and less likely to be shelved permanently.

Toys should be safe to use—without sharp corners or rough places or poor paint that might be harmful to a youngster. And toys should be washable.

Finally, toys should have what the specialists call a "do-with" quality. Good old stand-bys such as wagons, blocks, clay, sand, finger paints, and the like may fit into the child's interest of the moment.

THE STABLE AT BETHLEHEM . . . The Babe in the manger, surrounded by gentle animals, is a vision we can see more clearly with our hearts than with our eyes. And seeing it, we may truly say, "Glory to God in the highest."

Christmas Helps World's Economy

Many people, with the total exception of children, have come to believe that Christmas has become too commercial. In a spiritual sense, this is true to some extent.

Economically, however, no other holiday or festive season contributes so much to the welfare of the world. Christmas has hardly passed into the new year before thousands are at work on toys and myriads of other Christmas specialties for the next holiday. Each year, as the lights of Christmas trees twinkle on a wintry night, how many of us think of the millions who have gained employment through the Christmas shopping industry?

And yet, "too commercial" may be an understatement. Is it too wrong, once a year, to make the dominant theme one of giving, rather than of receiving? Christmas, and the spirit of Christmas, has endured wars and great chaos through centuries as a time of joyousness and happiness, and giving has always been an important part of the festivities.

The picture of the family united, with presents opened, and children wrapped in the joyousness of childhood's greatest emotion is still, and will remain the Christmas story.

Problem-Solver

Even manufacturers of miniature motor cars have their problems with finishes. One such problem developed when the maker of toy plastic cars was puzzled over the way to equip his minute motors with authentic-looking chrome bumpers without upsetting production. The answer was found to be a specially formulated finish that will not attack the plastic and that dries in one minute, permitting continuous production. By means of it, costs were kept down and saleability was improved.

Courteous

Although water holes are gathering places for many of the animals on which the lion preys, he seldom makes a kill at one of these oases.

... A HERALD OF THE KING ...

Emotional Cycles

Definite cycles have been found in the emotional life of human beings. Professor Rex B. Hersey of the University of Pennsylvania has discovered that individual males tend to have their own emotional ups and downs in rhythmic cycles which may vary in periods, depending on the individual, from 2½ to 9½ weeks.

Hawaiian Church

Kawalaho church, "Westminster Abbey of Hawaii," was built a century ago. The large coral building blocks were carried by hand from the ocean-front, at that time several miles away. Hawaiian language services, with choirs singing Hawaiian hymns, are open to visitors every Sunday morning.

Light Colors Minimise Heat

Building and apartment house courts—and the surrounding room and apartments—are cooler when a light color is used on the walls of the court than when a dark color is there. The light hue will reflect instead of absorb the heat of the sunlight that falls upon it.

19 What dreams may come must give you joy in this bright holiday season 51
